SRIVAY

Engineered for Scale. Positioned for

Global Growth

Mining & Minerals · Scaffolding Systems · United Paints

FROM INDIA TO THE WORLD

- People
- Products
- Progress

Srivay began in 2016 with a mission to bring structure, technology and responsibility to mining.
Since then, we have built mines across three continents and a global minerals trade.

We have also expanded into two export businesses: Scaffolding Systems and United Paints™.
Today, Srivay Industries brings all three together under one group, connected by engineering, sourcing, manufacturing and export capability.

What connects them is simple. We engineer good products, secure the inputs behind them, and deliver them to the world.

Our Vision

To build one of India's most trusted global industrial groups, turning natural resources and engineering into products that build a stronger tomorrow.

Our Mission

- Engineer products that make construction safer and faster.
- Secure critical raw materials for supply continuity and consistent quality.
- Scale through a disciplined manufacturing and export network.
- Grow responsibly with partners, people and communities.

MINING & MINERALS

SCAFFOLDING SYSTEMS

UNITED PAINTS

Srivay at a Glance

$10M	Monthly exports
03	Continents with Srivay
13	Contract manufacturing facilities
GCC	Active in UAE and Saudi Arabia
2016	Year founded

Our Journey

2016
Srivay is founded

2017–18
Iron ore mining begins, followed by our first export

2019–21
Granite mines and the Ongole gangsaw factory

2022
Vizag facility opens; CRGO imports begin

2023–24
DR Congo copper mine and the first copper ore import to India

2025
Chrome and ilmenite operations in Madagascar

2023–24
Scaffolding Systems launched

2025
United Paints launched

2026
Export Division scales across global construction and GCC markets

Ten years. Three businesses. One direction: forward.

Three Businesses. One Integrated Platform

Each Srivay business stands on its own. Together, they share the same engineering discipline, sourcing strength and export network.

Scaffolding Systems

A proprietary, chrome-coated, high-strength scaffolding system built for high-rise and commercial construction. Faster, safer and easier to install.

United Paints

Coat a Brighter Tomorrow. Paints made with proprietary formulations and strategically sourced raw materials, now supplying GCC markets.

Mining & Minerals

Copper, chrome, ilmenite and granite mining across DR Congo, Madagascar and India, plus global sourcing of industrial and strategic minerals.

What Sets Us Apart

In-house R&D

Products designed and refined by our own team

Secured at the source

Direct access to ilmenite and titanium dioxide

Scalable manufacturing

13 contract facilities in Ludhiana

Export infrastructure

Shipping through the Nhava Sheva gateway

Scaffolding Systems

Engineered for Speed. Designed for Simplicity.

Construction today demands speed, safety and simple installation. Our proprietary chrome-coated scaffolding system is built for high-rise and commercial projects. It is strong enough for demanding sites and simple enough for any crew to work with.

Connect. Adjust. Lock.

Connect

Standardised components fit together quickly on site.

Adjust

Skilled and non-skilled workers can make routine

Lock

The system secures firmly in place, ready for work.

Built to Perform.
Built to Scale.

In-house R&D
A proprietary system developed and tested by our own engineers.

Built for Scale
Standardised components produced across 13 contract.

Easy to Adjust
Routine adjustments need no specialist crew, so sites keep moving.

Chrome-coated strength
A high-strength, chrome-coated finish made for demanding sites.

From our factories to your site

Manufactured in Ludhiana,

Shipped through Nhava Sheva.

Delivered to Construction buyers worldwide.

Specifications panel

	Components	Direct access to ilmenite and titanium dioxide
	Load ratings	Direct access to ilmenite and titanium dioxide
	Sizes	Direct access to ilmenite and titanium dioxide
	Standards	Direct access to ilmenite and titanium dioxide

Request scaffolding specs and technical sheets at info@srivay.com

United Paints

Coat a Brighter Tomorrow

Built on Strategic Sourcing. Formulated for Global Markets.

Great paint starts long before the can. United Paints combines proprietary formulations with strategic access to critical raw materials like ilmenite and titanium dioxide. These are the inputs behind opacity, brightness and lasting coverage.

Ilmenite | Titanium Dioxide | Formulation | United Paints | Global Markets

Few paint brands can trace their quality back to the mine. Ours can

Paints for Residential, Commercial and Industrial Use

Feature blocks:

- **Strategic raw-material sourcing**
  Supply continuity, consistent quality and cost control.
- **Contract manufacturing network**
  Capacity that grows with demand.
- **Registered brand, proprietary formulation**
  A formulation that is ours, under a brand that is ours.
- **GCC distribution**
  Now supplying the UAE and Saudi Arabia.

Callout:

- Made with high-grade TiO_2 for **superior opacity and**

Our range:

- Interior | Exterior | Commercial | Industrial | Speciaty

Distributor band:

- Become a United Paints Distributor. We are building our distribution network across the GCC. To request a shade card or discuss a partnership, write to info@srivay.com.

Mining & Minerals

Resources That Power Industry.

Mining is where Srivay began. Today we operate mines on three continents and source industrial and strategic minerals for buyers worldwide.

Our Mining Operations:

Copper
Kolwezi, DR Congo

Chrome
Madagascar

Ilmenite
Dauphin, Madagascar

Steel Grey Granite
India

Vizag White Granite
India

From Procurement to Processing

Our Services:

Mineral procurement

Global sourcing of industrial, strategic, battery and rare earth minerals.

Beneficiation

5 joint-venture facilities in Telangana and Andhra Pradesh.

Minerals consulting

Practical guidance from a team that runs its own mines.

CRGO supply

Electrical steel sourced from partner mills in China, Japan and Europe.

What we supply

Category	Products
Pigments & Fillers	Titanium Dioxide (TiO_2); Barium Sulphate
Base Metals	Copper Concentrate; Copper Cathodes; Aluminium Billet
Strategic Metals	Titanium Sponge
Mining Chemicals	Sodium Cyanide; Activated Carbon
Electrical Steel	CRGO Coils
Ores & Stone	Chrome Ore; Ilmenite; Granite

From India to the World

Our products are made in India, sourced across three continents and shipped to buyers around the world.

HEADQUARTERS	Hyderabad, India
MANUFACTURING	Ludhiana, Punjab
EXPORT GATEWAY	Nhava Sheva, Mumbai
GCC DISTRIBUTION	Dubai, UAE and Saudi
MINES	DR Congo and Madagascar
INDIA OFFICES	Mumbai and Delhi
INTERNATIONAL OFFICES	Dubai, Montreal, Arizona, Kolwezi and Kampala

How we Deliver

Engineering

Products designed in-house for real site conditions.

Sourcing

Critical raw materials secured at the source.

Manufacturing

A disciplined network of contract facilities.

Logistics

Export through the Nhava Sheva gateway.

Global Distribution

Partners and offices close to our buyers.

Let's Build Together.

Sourcing minerals, scaffolding or paint at scale? Let's talk.
